AN INVITATION TO YOU—TO VISIT OUR NURSERY

You will find a visit to our Nursery very interesting and worth while. Many acres of highest-quality stock in a wide range of plant varieties are available for your inspection and selection.

A visit when the Ornamental Trees, Shrubs, or Rhododendrons are in bloom is especially interesting and is an excellent time for making selections. Information concerning the various plants and their proper use and care will be cheerfully given.

PLANNING AND PLANTING SERVICE

PLANNING the garden and home landscape is just as important in the development of a real home as planning the house. Well-planned grounds provide a harmonious setting for the house. Let us work with you and help you with your planting problems. Artistic and satisfactory landscape effects are the result of careful planning and the proper use of the right plant material. Our Landscape Department is maintained as part of our service to our customers, so that you may realize the utmost pleasure and satisfaction in the use of our materials.

The ability and experience of Bulk's Nurseries are reflected in the landscaping of many fine home-grounds, estates, and public plantings throughout Long Island and suburban New York. "PLANTED BY BULK'S NURSERIES" is synonymous with first-class workmanship, tasteful arrangement, and lasting satisfaction.

We will gladly draw sketches and plans to fit your particular needs, whether it be for a complete treatment of the entire grounds, a foundation planting, a special planting of any kind, or a revamping of an established planting. This service, in most cases, is rendered free of cost, except where elaborate plans, specifications, and special trips are necessary, in which case a small fee will be charged, which will be credited to our customer's account when order is placed.

Phone Babylon 444, or drop us a card and our representative will be glad to call on you to make suggestions and offer advice, without obligation to you. Our service extends throughout entire Long Island and the Metropolitan area.

Appointments at your home, any day including Sunday, will be gladly made and kept.

NURSERY SALES SERVICE

Prompt and efficient service is available for those who wish to call and select plants to take home with them. Our Nursery is open on Sundays during planting season, and experienced nurserymen will assist you in making selections, and show you around.

Our nursery stock is the finest that skill and good culture can produce, and our plants have an abundance of fine fibrous roots which are so essential for continued healthy growth.

HONEST VALUE

For every dollar invested in our products is the policy of Bulk's Nurseries, and we are proud to live up to this reputation. Our prices are as reasonable as is consistent with the highest grade of materials, and we invite you to make comparisons with any stock of similar quality.

PLANTING SEASONS

Evergreens may be planted from the time the frost leaves the ground until the latter part of June, though early planting is much preferred. Some varieties can be moved satisfactorily during the summer months. August, September, and October are excellent months.

Plant shrubs, trees, and fruit trees from the latter part of March until June, and from the middle of October until the ground freezes. Pot-grown Roses can be moved the entire summer and continue to bloom.

SALES DEPARTMENT

TO FACILITATE and make it convenient for home-owners to select and take along plants in their cars, we are maintaining a Sales Department where choice, freshly dug plants are taken from the Nursery and put on display, thereby saving you the time of covering our complete nursery, which is extensive.

These plants are ready to load into your car, and many customers have developed their grounds by gradually picking up plants as they can afford them. Deliveries can be arranged by our truck, at slight additional cost.

From time to time, special sales will be conducted, and you will find our Sales Ground a place where dependable nursery stock can be obtained at unusually attractive prices.

Experienced nurserymen are at your service and will be glad to offer advice and make suggestions.

Flower seeds, lawn seed, fertilizers, and insecticides are stocked for your convenience.

To serve you, the Sales Department will be open on Sundays, holidays, and in the early evening during the planting seasons.

GENERAL DIRECTIONS FOR ORDERING AND OUR TERMS

Always give address and desired time of delivery; otherwise we forward by the most economical route. Practically all our deliveries will be made by our trucks. Our free-delivery radius, on orders amounting to \$10 or more, on plants as listed in this Catalogue, extends 30 miles from our Nursery. This enables distant customers to get the benefit of local prices. During planting season, loads are combined for each locality at least twice a week. Beyond this 30-mile limit, a small charge will be made for delivery to cover cost, unless otherwise arranged at time of sale.

The cost of planting, if we do it, is borne by the purchaser. Our charge merely covers the cost of labor, fertilizer, etc.

GUARANTEE

Because all our stock is freshly dug and reaches the customer in fine, healthy condition, and because of the utmost care and skill used in growing our plants, we agree to replace any plants sold, at the prices published in this book, that may die within one year from date of delivery from other causes than abuse or neglect, but we make the following reservations:

The account must be paid within 30 days from date of invoice.

The customer pays the cost of delivery and planting of the replaced plants.

In the event we shall not have in stock, at the time for replacement, plants like those originally supplied, we are to apply the amount of credit representing the cost of the original plants toward the purchase of other plants that the customer may at the time select and which we can supply.

We guarantee our stock to be true to name and will replace any that proves otherwise, or refund purchase price.

The air-view below indicates to some extent the size of our nurseries. It is here that Bulk's quality stock is carefully grown for you.

INTIMATE relationship of house and grounds makes for better and more enjoyable living. Let your grounds be an outdoor living-room. Comfortable chairs in a partly shaded spot provide a delightful and homey touch.

PLANTING is the Best Investment. Returns are practically guaranteed. Planting is about the only thing that money can buy for the home that will not depreciate in value almost immediately.

LET us help you plan your garden to be lived in. As much pleasure can be realized in planning the garden as can be obtained in furnishing a room. Our Landscape Department is always ready to help you.

ORNAMENTAL and SHADE TREES

IN ADDITION to the trees which are valued for their shade, there are flowering trees which, at different times during the spring and summer, shower the lawn with their bloom. Do not forget that while shade trees add materially to the property value and landscape charm of your home, the initial cost is very small as compared with the enjoyment that you receive. The average shade tree is a long investment and returns your money manifold throughout the years of its usefulness.

The abbreviation "cal." means the caliper or diameter of the tree 6 inches above the ground.

Trees where B&B. is indicated are dug with ball of earth and burlapped. For varieties not marked B&B., add 20 to 30 per cent additional to price listed for B&B., according to size of ball needed.

• FLOWERING SHRUBS •

WHETHER planted individually or collectively, shrubs are an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen the garage, the laundry-yard, or some unsightly view. Among borders of the lawn, along walks and drives and in corners, collections of shrubs may be gathered that will give a succession of bloom from early spring until fall. In the list that follows will be found shrubs for all such purposes.

Except where noted otherwise, a charge will be made for digging shrubs with ball of earth (B&B.), as follows: 1 to 2 ft., 15 cts. each; 2 to 3 ft., 20 cts.; 3 to 4 ft., 25 cts.; 4 to 5 ft., 35 cts.; 5 to 6 ft., 50 cts.; 6 to 7 ft., 75 cts.; 7 to 8 ft., \$1.

A GOOD FOUNDATION PLANTING IS A LASTING INVESTMENT

THE design of the house, surroundings, exposure, and the right choice of plant material are all fundamental considerations.

Many evergreens and shrubs are not suited for Foundation Planting and soon grow too large and become unmanageable.

BROAD-LEAF EVERGREEN SHRUBS

BROAD-LEAF Evergreens are right at home under Long Island soil conditions. We urge you to make use of them in foundation plantings. They are slow growing and rich in color and texture, and with a mulching of decayed leaves or peat moss they will do well. Let us help you in making up beautiful combinations and mass effects.

LET us help you select the right plants so that your planting will remain in scale with your house and afford you years of lasting satisfaction.

No one investment a homeowner can make adds as much to the beauty and value of a place as a well-designed landscape planting.

BROAD-LEAF Evergreen Shrubs lend themselves very well to combination plantings with choice evergreens. They are slow growing, rich in color and texture, and provide colorful flowering effects.

Upright Japanese Yews and the various types of dwarf and spreading Yews, when combined with Broad-leaf Evergreens, make a splendid and lasting home-planting.

BROAD-LEAF EVERGREENS

WITH few exceptions, no grounds, either small or extensive, should be without some representative of this rich and interesting group of plants. They endure shade, and their rich blossom and foliage effect makes them almost indispensable. Certain varieties of this class, such as Rhododendrons, Azaleas, and Laurel, ordinarily grow more satisfactorily and show to better advantage when planted in rather heavy masses. A deep, cool, moist subsoil, with proper drainage, is ideal. As a rule, they dislike lime, or limestone soil, and success will be more certain on such soils if they are planted in woods earth or mulched with peat moss. Oak leaves are ideal for covering the ground beneath them.

AZALEA

For Deciduous Azaleas, see page 8

Azalea amoena. *Japanese Azalea.* Purple-red blooms produced in a solid mass during April and May. The lustrous leaves take on a rich bronze in the fall, making this a most attractive plant. It is a vigorous grower. Does well in shady locations.

MING MASS PLANTING OF HYBRID RHODODENDRONS

• EVERGREENS •

IN this group are contained some of the most valued plants for landscape effects. The diversity of color and habit of growth in this class provide truly "a plant for every place and purpose," some for limited areas of foundation plantings or for bed and border uses, others for screens, hedges, windbreaks, and for group and specimen plantings. They are always desirable for both summer and winter effects.

ABIES • The Firs

Abies concolor. *White Fir.* Rapid-growing evergreen, with long, bluish green needles, and of symmetrical, upright habit. Splendid as a lawn specimen, as a contrast with the darker foliage of other trees, and is also useful in screen and border plantings. It is a tree of great dignity.

Each	Each
1½ to 2 ft. \$1 50	6 to 7 ft. \$8 00

5 to 6 ft. 6 00	8 to 10 ft. 15 00
6 to 7 ft. 8 00	10 to 12 ft. 20 00

C. obtusa. *Hinoki Cypress.* An extremely graceful evergreen of medium height. The foliage is a rich dark green. Makes a fine specimen.

Each	Each
1½ to 2 ft. \$1 00	5 to 6 ft. \$7 00
2 to 2½ ft. 1 75	6 to 7 ft. 9 00
2½ to 3 ft. 2 50	7 to 8 ft. 12 00
3 to 4 ft. 3 50	8 to 10 ft. 15 00
4 to 5 ft. 5 00	

C. obtusa compacta. *Football Cypress.* Foliage dark green. Dwarf, compact, and of good form, from which it derives its name. An excellent type for foundation plantings.

Each	Each
15 to 18 in. \$1 00	2 to 2½ ft. \$2 00
1½ to 2 ft. 1 50	2½ to 3 ft. 3 00

C. obtusa crippsii. *Golden Hinoki Cypress.* A golden-leaved form of *C. obtusa*. Bright yellow at all times.

C. obtusa gracilis. *Slender Hinoki Cypress.* Compact and of dwarf habit. Makes a narrow, irregular pyramid with light, graceful branches and rich green foliage.

Each	Each
1 to 1½ ft. \$1 25	3 to 4 ft. \$5 00
1½ to 2 ft. 1 75	4 to 5 ft. 7 00

2½ to 3 ft. 3 50	6 to 8 ft. 15 00

Chamæcyparis obtusa gracilis compacta. *Compact Hinoki Cypress.* A little more compact than *C. obtusa gracilis*. Interesting irregular character of growth; slow growing.

Each	Each
15 to 18 in. \$2 00	2½ to 3 ft. \$5 00
1½ to 2 ft. 2 50	3 to 3½ ft. 7 00
2 to 2½ ft. 3 50	

C. obtusa nana. *Dwarf Hinoki Cypress.* Forms a compact, dense, irregular plant, with a Japanese effect. One of the best dwarf evergreens for planting in the foreground and excellent for the rock-garden.

Each	Each
8 to 10 in. \$1 50	15 to 18 in. \$5 00
10 to 12 in. 2 50	18 to 24 in. 7 00
12 to 15 in. 3 50	2 to 2½ ft. 10 00

C. pisifera. *Sawara Cypress.* Quick growing, of tall, pyramidal shape, with horizontal branches. The foliage is a deep, glossy green. When sheared, makes a beautiful specimen, and is very graceful when left to develop naturally.

C. pisifera plumosa. *Plume Cypress.* Light green foliage, soft and feathery. When sheared, makes a compact plant which can be used either around the foundation of the house or as a lawn specimen.

Each	Each
1½ to 2 ft. \$1 00	5 to 6 ft. \$4 50
2 to 2½ ft. 1 50	6 to 7 ft. 6 00

Evergreen Hedges

From time immemorial people have used hedges and fences to protect their property from intrusion and to secure privacy. Until recently an evergreen hedge meant quite an expense, but they have now come down to a price-level within the reach of every home-owner. We invite you to compare the prices listed below with the cost of a fence.

2 to 2 1/2 ft. 3 50	7 to 8 ft. 24 00
3 to 4 ft. 6 50	

P. nigra (austriaca). *Austrian Pine.* A stately Pine, vigorous and rapid grower; very hardy. Long, rich green needles. It thrives on any soil, inland or near the sea. One of the finest Pines for general planting, thriving in either the smoke- and gas-laden air of cities or the bracing salt air of the seashore. While it will stand trimming, it looks much better when allowed to grow naturally.

Each	Each
2 to 3 ft. \$2 00	7 to 8 ft. \$13 00
3 to 4 ft. 3 00	8 to 10 ft. 20 00
4 to 5 ft. 5 00	10 to 12 ft. 30 00

6 to 7 ft. 10 00	14 to 16 ft. 55 00

P. resinosa. *Red Pine.* Resembles the Austrian Pine in habit, the needles, however, being longer and darker, though not so coarse or stiff. Quite as desirable as the Austrian Pine.

Each	Each
4 to 5 ft. \$3 50	8 to 10 ft. \$18 00
5 to 6 ft. 5 50	10 to 12 ft. 27 00
7 to 8 ft. 11 00	12 to 14 ft. 38 00

Pinus strobus. *White Pine.* An extremely rapid-growing Pine, and forms very beautiful specimens if permitted to develop in the open. Useful as lawn specimens in the border, as a screen or windbreak, and is exceptionally fine for mass planting.

Each	Each
5 to 6 ft. \$5 00	10 to 12 ft. \$20 00
6 to 7 ft. 7 00	12 to 14 ft. 28 00
7 to 8 ft. 10 00	14 to 16 ft. 40 00
8 to 10 ft. 15 00	16 to 18 ft. 60 00

P. sylvestris. *Scotch Pine.* Desirable for its very rapid growth and adaptability to most soils. Silvery foliage.

Each	Each
2 to 3 ft. \$1 50	4 to 5 ft. \$3 00
3 to 4 ft. 2 00	5 to 6 ft. 5 00
	6 to 7 ft. 7 00

P. thunbergi. *Japanese Black Pine.* A beautiful Pine with rich dark green needles and interesting outline. Good for seashore planting.

Each	Each

4 to 5 ft. 6 00	

PSEUDOTSUGA. *Douglas Fir.* See *Abies*, page 18.

RETINOSPORA. See *Chamaecyparis*, page 18.

SCIADOPITYS - Umbrella Pine

Sciadopitys verticillata. *Umbrella Pine.* An unusual and beautiful specimen evergreen with long, shining green, needle-like leaves. Slow growing.

Each
3 to 4 ft. \$7 00

TAXUS (The Yew)

Without question, the Yew (*Taxus*) in its various forms is the outstanding evergreen for use on the home-grounds and in general landscaping, for its dark green, rich-textured foliage is always fresh-looking and attractive. It is extremely hardy, not affected by cold or heat, and will grow in shade as well as sun. A slow grower and lends itself well to shearing.

Taxus baccata bulki. *Bulki's Yew.* A dwarf, upright variety of Yew with numerous vertical stems. Compact grower; useful for hedges. Dark bluish green foliage.

Each	Each
1 1/2 to 2 ft. \$2 00	2 1/2 to 3 ft. \$4 00
2 to 2 1/2 ft. 3 00	3 to 3 1/2 ft. 5 00

A FEW PRACTICAL HINTS ON PLANTING

Always keep roots covered when plants are out of the ground.

Dig hole large enough to receive plant without bending roots.

Break up subsoil and mix it thoroughly with rotted stable manure.

Set plants slightly deeper than they stood at the nursery.

Work in good soil among roots so as to leave no air-pockets.

Fill hole and tamp soil down thoroughly with the heel of shoe or tamping tool.

Leave slight depression around plant to catch the water, and water thoroughly.

BULK'S HARDY ROSES

ROSES—the mere name is an inspiration to garden lovers. Nothing can take the place of the Rose. Almost every home has room for at least a few. Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal fertilizing, and good cultivation. Branches should be well cut back early each spring.

All Roses, except field-grown Hybrid Teas, carry our regular guarantee

POTTED ROSES FOR SUMMER PLANTING

Most of the Roses offered here are available in pots for summer planting. Potted Roses give an immediate effect, and it is fun to select the plants in bloom to assure getting the colors you like.

THERE is always something of interest to be seen at Bulk's Nurseries, from the time the early Spring-Flowering Shrubs are a riot of color, through the blooming times of Azaleas, Rhododendrons, Dogwoods, Crabs, Japanese Cherries, Roses, Hardy Flowers and on through the rich foliage colors and berried effects of Autumn—always something of beauty and interest to be seen. We welcome visitors at all times and urge you to come and look around.

PERENNIALS

IT IS no wonder that these old-fashioned hardy garden flowers continue to increase in popularity, for there is not a time during the whole flowering season when some hardy perennial is not in bloom, and when, during the late summer, few shrubs are in blossom, these little plants may be depended on for attractive display. Plant perennials this year in the flower-bed where you have been using annuals. Every year you have to replace annuals, whereas the perennials come up each season with very little work or expense.

A ROCK-GARDEN IS A CHARMING ADDITION TO EVERY GARDEN

ADDING CHARM WITH ROCKWORK

Very often the attractive use of rocks in the landscape marks the difference between that which is ordinary and that which is outstanding.

In the hands of the landscape designer, rocks can be used with a great deal of charm in appropriate places. Perhaps your grounds call for an interesting rockery or a combination of pool and rock-garden.

Why not let us look over your grounds and tell you of such possibilities.

FRUIT AND NUT TREES

FRUITS

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield, which you will enjoy eating right from the trees or in winter as preserves and jam. The fruit-garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide blooms for cutting.

Spraying of Fruit Trees. For best results we recommend three sprayings: First, during the winter; second, after the blossoms fall; and, third, about two weeks later. This will control the most prevalent insects and fungous diseases attacking fruit trees on Long Island. We have men experienced in this kind of work who are available at a moderate cost.

NUTS

Set out a few Nut Trees. They make splendid ornamental trees and yield a bountiful harvest of nuts. We are offering only improved varieties, best suited to Long Island conditions. Grafted trees.

CHESTNUT, Chinese Hairy. Blight-resistant. Wonderful ornamental value. Nuts resemble American Sweet Chestnut.

BEFORE PURCHASING PLANTS CONSULT WITH US

The right way to get the best out of every dollar spent in plants is to consult the specialist. While plants are sold as merchandise they cannot be regarded from the same standpoint as other merchandise. They are living things meant to grow and to accomplish a certain purpose. It is not a matter of quantity or price. It is a matter of getting a plant suitable to your soil and the situation in which it has to grow. This is our specialty—we are interested in your results. We want to help you to select plants and use them in the right way. Consult with us now while the planting season is here.
